Radio and TV Magazines (incl. articles)

This list indexes information in the radio and TV magazines held in the Special Collections Department of the Thousand Oaks Library. The columns give publication name, date, volume/number, article title and personal names. The first entry for each magazine (usually the cover) is printed in bold. The list also indexes some individual articles clipped from source material; it is a work in progress and additional entries will be made over time, from the existing magazines as well as new materials when they are added to the collections. (3/2015)
