Genetic Modification in the 21st Century
• CSUCI Lecture •

Speaker: Dr. Kyndra Turner

In popular thought, the development of genetic engineering signals the progress of human civilization. As we proceed into the twenty-first century, the prevalence of genetic engineering and pharmaceuticals has become more controversial than ever. Richard Power’s novel, Generosity: An Enhancement, highlights the challenges surrounding genetic engineering of human bodies and the ethical ramifications. Dr. Kyndra Turner explores how the novel challenges the idea of genes as commodity that can be seized, altered, controlled, and patented.
