USE THE WPS

If your Wi-Fi device supports WPS, you do not have to input the password manually after WPS connection has been established. Please follow the following steps:

1. Power on your Mobile Hotspot and enable the Wi-Fi function.
2. Press and hold the WPS key on your device for 3 seconds to start the Wi-Fi Protected Setup authentication process.
3. Enable the WPS function on your Wi-Fi device in order to respond to this authentication process.
4. Follow the system prompts on your Wi-Fi device to finish the connection.
5. If no Wi-Fi device is connected within 2 minutes, WPS function will automatically close.

MANAGING YOUR MOBILE HOTSPOT

ACCESSING YOUR MOBILE HOTSPOT

You can access your Mobile Hotspot device information using an Internet browser.

To access using a browser:

1. Connect to your hotspot device through Wi-Fi using the network connection software on your computer. Provide the Wi-Fi network password, if requested.
2. Open a browser and enter http://mobile.hotspot or http://192.168.0.1 in the address bar. The Mobile Hotspot login screen will appear.
3. Enter your Password in the field provided. You can find your default admin password and Wi-Fi password on the label located on the underside of the battery cover.
### LED DESCRIPTION

### CHARGING YOUR MOBILE HOTSPOT

There are two ways to charge your mobile hotspot:

1. Charge using a charger and USB data cable: Connect the USB cable into the charging port as shown and connect the charger to a power outlet to start charging. When the device is powered off, it takes about 3 hours before being fully charged.

2. Charge using a computer and USB data cable: You can also charge the device by connecting it to a PC with the USB cable. When the device is powered off, it takes about 4 hours to complete charging.

### Note:
When red battery indicator lights up, device should be charged in order to protect the battery.

### CHARGING OTHER DEVICES

Use the full-size USB port to charge other devices, such as tablets and smartphones.

### INDICATORS

When the hotspot is powered on, the following icons will illuminate. For a description of the icons, please refer to the table below.

<table>
<thead>
<tr>
<th>LED Indicators</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wi-Fi Indicator (Blue LED)</td>
<td>Solid Blue: Wi-Fi is active. Flashing Blue: WPS mode is active.</td>
</tr>
</tbody>
</table>

### Solid Blue

Registered and connected to network.

- Good coverage: 3 LEDs all light up
- Middle coverage: 2 LEDs light up
- Weak coverage: 1 LED lights up

### Flashing Blue

Network disconnected.

### Solid Red

No network, no SIM card or SIM card error, limited or no service.

### Battery Indicator (Red or Blue LED)

- Solid Blue: 3 LEDs light up blue: Battery level 80%-100%
- 2 LEDs light up blue: Battery level 40%-79%
- 1 LED lights up blue: Battery level 15%-39%

### Solid Red

1 LED lights up red: Battery level 0%-14%

### Flashing

LEDs will flash while charging. Once the battery level is at 100%, 3 LEDs will display solid blue.

### SMS Indicator (Blue LED)

- Solid Blue: New message
- Slowly Flashing Blue: Message inbox is full
- Off: No new messages

### Software update

- Fast Flashing Blue: 1. New Software version download or installation is pending. 2. In process of software update installation.
